## BUSINESS SECTOR

The university of Caen Normandy – UNICAEN – welcomes more than 32,000 students on several campuses in Caen conurbation and in the region in Cherbourg-en-Cotentin, Saint-Lô, Alençon, Lisieux and Vire.

UNICAEN counts 41 research units : 21 of them are recognized by a national research institution (CNRS, CEA, INSERM, INRAE)]. These units are organized in three scientific pluridisciplinary poles : « Science and technology », « Humanity and social sciences », « Integrative biology, imaging, health, environment ».

**Trainings** : an internal engineering school with five specialities including one in « Mechatronic and on-board systems », one in « Industrial engineering », one in « energy engineering » and one in « nuclear engineering ».

Trainings in 3-year technical degree, (technical bachelor's degree), professional bachelor's degree, bachelor's degree, master's degrees and PhD in five fields: « Sciences, technologies, health », « Law, economics, management », « human and social sciences », « Arts, literature, languages » and « Science and techniques in sports and physical activities ».

**Professional training** : UNICAEN welcomed more than 3,100 trainees in 2024 as part of continuing training and more than 2,000 persons in worklinked training.. These trainees are found at all levels from 3- to 5-year postsecondary education on graduate or qualifying and certifying careers.
