⚙️ BUSINESS SECTOR

AMPS specializes in high-precision turning, micromachining and bar turning for series of 15 to 5,000 pieces. We work with all types of materials except cast iron, including copper, stainless steel, plastic, aluminum, steel, brass and nickel alloys. Our team consists of 25 people, allowing us to be responsive in terms of deadlines, but also to ensure the reliability of our processes.

Thanks to the advanced technical skills and excellent organization of the AMPS team, our customers benefit from productivity and a great deal of experience.
